

Cognitive Literacy Solutions

Literacy is more than reading. It includes listening, writing, spelling and grammar, as well as the critical skills of phonics, fluency and comprehension required to be a good reader. LiteracyPlanet provides an integrated, standards-aligned, single-platform solution that can be used at school, at home ... anywhere you have an internet connection.

LiteracyPlanet brings together curriculum-aligned literacy education and the latest digital technology. Whether for early reading skills or advanced grammar, LiteracyPlanet provides students with a learning adventure to help them develop excellent English literacy skills. Because the program is highly interactive and extensively gamified, students are immediately engaged and continually motivated to build their skills. It is so much fun, they may not even recognize how much they're learning!

Teachers no longer have to try to patch together multiple programs and systems to create a complete, comprehensive literacy program.

Winner TechWire Tech for
Teachers Award

LiteracyPlanet supports students in their learning journey by enabling them to work at their own level and at a pace that is appropriate to them. The gamified aspects of the program and high-quality visuals engage and motivate learners to do their best.

“Scientific studies show that learning depends on attention, repetition and immediate feedback. LiteracyPlanet provides all of these things in a highly entertaining and rewarding environment that motivates children.”

Genevieve McArthur
Professor

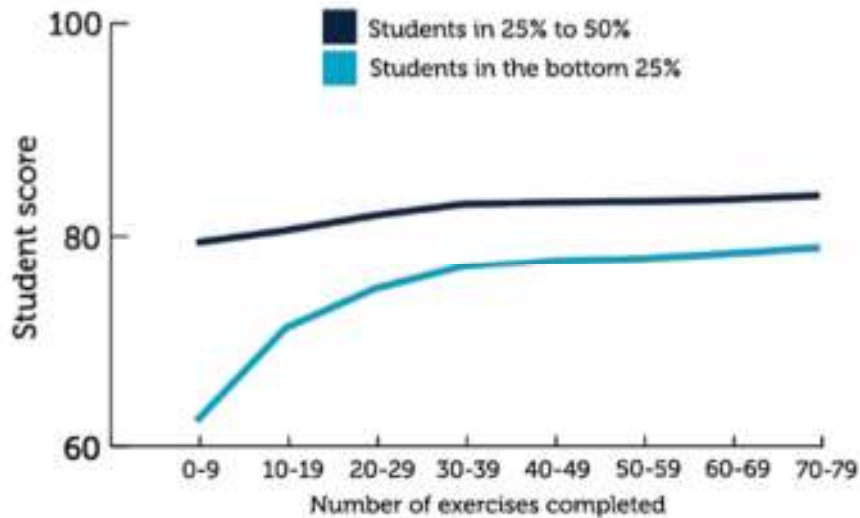

Department of Cognitive Neuroscience
MacQuarie University

Literacy Planet:

- This comprehensive program contains **tens of thousands of exercises** for learners from Kindergarten through 10th Grade.
- All of the activities in the program are **aligned to state standards**. Teachers can search for activities that address specific standards for any grade level.
- Makes it **easy for teachers to assign activities** to individual students or groups of students. Students can also explore and progress independently.
- Allows students to work at the optimal level for them in a **highly personalized** environment.
- **Provides an immersive and engaging digital-game based** experience.
- Provides **powerful reporting** with the ability to view all students' progress and to drill into the detail of correct and incorrect answers within any assigned activity for any student.

Covers all key literacy skills:

- Pre-Reading
- Phonics
- Sight Words
- Reading
- Spelling
- Comprehension
- Grammar and Punctuation
- Writing

In a study conducted by PricewaterhouseCoopers, students who were substantially below grade-level reduced the gap to their on-grade-level peers by 70% after completing 30 exercises in LiteracyPlanet. Students who completed exercises across multiple subject areas had higher average scores on literacy tests – the more subjects completed, the higher their scores.

System Requirements:

Tablet

iPad 3 and above with iOS 9 or above
 Most Android tablets with access to Google Play Store.

PC or MAC or Chromebook

Browser with Flash Plug-in.
 Chrome Browser preferred.
 Internet Connection
 Computer Speakers/Headphones.
 Mouse.

Recommended Use:

- 3 to 5 times per week
- 15 to 30 minutes per session

90 minutes of live online training is provided with most license packages. More extensive professional development programs are also available.

The program has been designed to be flexible in its implementation:

- Classroom
- Computer Lab
- Before/After School
- School to Home
