

How Would You Like Us to Personally Walk You Through the Exact Step-by-Step System Our Clients Use to Dramatically Improve Their Child's Academic Performance ... Absolutely Free?

From: Roger Stark and Betsy Hill

Dear Friend,

Every day we hear from parents whose children we work with, marveling at how far their children have come.

- Getting their first A on a test ...
- Remembering to do something without being asked to do it twenty times ...
- Completing their homework independently ...
- Confidently contributing in dinner table conversations ...
- Qualifying for a gifted program at school ...
- Being able to focus on their schoolwork or chores at home ...
- Spending more time participating in family activities because their schoolwork doesn't take so much time ...

The question you should ask yourself is, "Do I want my child to have the best school year of their life this year and build the foundation for a successful life and career?"

If the answer is YES, then we would love to share with you how we're helping children achieve these kinds of results day in and day out, and we'd like to share it with you for FREE.

Here's how it works:

Chances are you haven't been sitting around waiting for us to get in touch with you and you probably have a lot of thoughts based on your experience.

Right now, You're Probably Stuck on One of These 3 Things...

You've already tried a bunch of things – and probably spent a bunch of time and money trying them. You've tried working with your child yourself, hiring a tutor, buying educational programs, and goodness know what else ... and it hasn't produced the results you wanted.

OR...

You have aspirations for your child, but you're not sure how realistic they are, given the struggles they are having in school and the feedback you get from school and teachers about how much you should or shouldn't expect from your child.

OR:

You see your child working hard but not getting the results you and they are striving for. You're just not sure what to do to help.

If any of these sound like you, the good news is that it's very likely that we can show you a plan to change all that.

This is what we do, day in and day out, family after family. If we can do it for them, why couldn't we do it for you and your child?

Here's How to Get Our Help for FREE ...

We've set aside some time to speak with you over the next few days.

We'll get on the phone with you for about 45 minutes. On that call, we'll lay out why the things you have already tried or the concerns we listed above are based on a lack of understanding and incorrect assumptions about what it takes to build someone's learning capacity. By the way, you're not alone; most educators don't understand these essential principles either.

Succeeding with a totally different approach may sound like a tall order ...

But after helping tens of thousands of children experience these kinds of successes, we feel very comfortable taking it on.

This process is tried and true. It works.

This invitation is going out to 6,000 people right now, so as you can imagine it's going to get a ton of attention.

So please read this part carefully:

This is NOT for Everyone.

Here's Who We Can Help

1. We can help if you're the kind of parent that makes sure your child always gets to appointments on time, prepared. (We're going to provide a ton of support on this, but your commitment has to be real.)
2. We can help if you are the kind of parent who can be a true cheerleader for your child – helping them when the going gets tough and celebrating them when those hard-fought victories arrive.

If you meet those two criteria and you'd like to talk about developing and nurturing your child's true brilliance so that they're prepared for a bright future, then we'll be happy to set aside some time for you.

Here's what to do next:

Go to <https://mybrainware.com/schedule> and you'll see our calendar. Pick a time that works for you.

Then you'll be taken to our quick application form. It's quick and simple. We just need a little information so that we can understand your concerns and make the best use of our time on the call.

That's it!

Obviously, it is physically impossible for us to fit more than a handful of call into our schedule in the next few days, so it is FIRST COME, FIRST SERVED.

DON'T MISS OUT – TIME IS A FACTOR

[If this seems like it might be the right opportunity for you and your child, click here, leave your application, and let's talk!](#)

Looking forward,

Roger Stark
